

Science Progression of Skills

	Working Scientifically	Reception/Year 1/ Year 2	Year 3/ Year 4	Year 5/Year 6
Working Scientifically skills linked to maths		<p>asking simple questions and recognising that they can be answered in different ways</p> <p>observing closely, using simple equipment</p> <p>performing simple tests</p> <p>identifying and classifying</p> <p>using their observations and ideas to suggest answers to questions</p> <p>gathering and recording data to help in answering questions.</p>	<p>making decisions, asking relevant questions and using different types of scientific enquiries to answer them</p> <p>setting up simple practical enquiries, comparative and fair tests</p> <p>making systematic and careful observations using notes and simple tables</p> <p>taking accurate measurements using standard units,</p> <p>using a range of equipment, including thermometers and data loggers</p> <p>gathering, recording, classifying and presenting data in a variety of ways to help in answering questions</p> <p>recording findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables</p>	<p>planning different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary</p> <p>taking measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate</p> <p>recording data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs</p> <p>using test results to make predictions to set up further comparative and fair tests</p> <p>reporting and presenting findings from enquiries, including conclusions, causal relationships and explanations of and degree of trust in results, in oral and written forms such as displays and other presentations</p>

Science Progression of Skills

		<p>reporting on findings from enquiries, using relevant scientific language, including oral and written explanations, displays or presentations of results and conclusions</p> <p>using results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions</p> <p>identifying differences, patterns, similarities or changes related to simple scientific ideas and processes</p> <p>using straightforward scientific evidence to answer questions or to support their findings.</p> <p>begin to look for naturally occurring patterns and relationships</p> <p>recognise when and how secondary sources might help them to answer questions that cannot be answered through practical investigations.</p>	<p>identifying scientific evidence that has been used to support or refute ideas or arguments.</p> <p>explore and talk about their ideas; asking their own questions about scientific phenomena; and analysing functions, relationships and interactions more systematically.</p> <p>recognise that scientific ideas change and develop over time.</p> <p>draw conclusions based on their data and observations, use evidence to justify their ideas, and use their scientific knowledge and understanding to explain their findings.</p> <p>Pupils should read, spell and pronounce scientific vocabulary correctly.</p>
--	--	--	---

Science Progression of Skills

Year Group	Aut 1	Aut 2	Spr 1	Spr 2	Sum 1	Sum 2
Reception	Seasons and Weather					
	Nocturnal Animals Seasonal changes	Contrasting environments Healthy food choices	What's inside the egg? Fossils	Amazing animals Types of animals	In the garden Planting Life cycles Minibeats	Where in the world Plastic pollution Contrasting environments
Year 1	Animals inc humans- Parts of the human body, senses Life cycle of a chick Fair tests	Animals inc humans- animal groups: fish, amphibians, reptiles, birds, mammals, carnivores, herbivores, omnivores	Plants- identify and name, inc deciduous and evergreen, basic plant and tree structure Date logging and recording	Seasonal Changes- observe changes across 4 seasons, inc. weather and day length	Materials- identify and name everyday materials, describe properties, compare and group	Materials- Prediction Choosing and using materials Exploring different materials Explaining uses and why
Year 2	Plants- Compare seeds and bulbs What plants need to grow Plant life cycles	Animals inc humans- Growth, survival, balanced diet, exercise, hygiene	Animals inc humans- Life cycles in animals Animals and their young	Living things and their habitats- Compare, living, dead, never alive, microhabitats, food chains	Uses of everyday materials- identify and compare, uses, changing shape	Living things and their habitats- Around the world Changing environments, rainforests, ocean, polar
Year 3	Animals inc humans- Skeletons and muscles	Animals inc humans- Food and nutrition	Rocks, fossils and soils – groups,	Forces and Magnets- friction, attract, repel, poles, group	Plants– parts of flower and functions,	Light– darkness is absence of light,

Science Progression of Skills

			types, formation and properties	magnetic materials, prediction, uses	requirements, life cycle, pollination, seed formation, dispersal	reflection, dangers of sun, shadows
Year 4	Animals inc humans– Food chains, digestion and teeth	Animals inc humans Continued	States of Matter cont.- heating, cooling, evaporation, condensation, water cycle	Electricity– circuits, conductors and insulators	Living things and their habitats– classification, environments	Sound – vibration, pitch and volume
		States of Matter- Solids, liquids, gases				
Year 5	Earth and space- movement of Earth, moon and planets, Earth’s rotation, day and night etc.	Earth and space- movement of Earth, moon and planets, Earth’s rotation, day and night etc.	Forces– gravity, resistance and friction Levers, pulleys and gears	Properties and changes of materials- grouping, properties, dissolving, mixing, changes of state	Revision of Rocks and Soils Revision of Forces and Magnets	All living things and their habitats– life cycles, reproduction Animals inc humans- growth, development and puberty
Year 6	Electricity- voltage and variations, symbols	Light- appears to travel in straight lines, how objects are seen, reflection, shadows	Animals inc humans- heart and circulatory system, impact of diet, exercise etc, how nutrients and water are transported	Evolution and Inheritance- DNA, change over time, offspring, characteristics, adaptation, evolution, Darwin Fossils, Anning	Living Things and their Habitats- classification of plants and animals, functions of parts of flowering plant, requirements for life, life cycle,	Animals inc humans- Impact of drugs and lifestyle Sex Education (RSE links) Looking after our environments

Science Progression of Skills

						pollination, transportation of water	
Plants	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
KNOWLEDGE		<p>identify and name a variety of common wild and garden plants, including deciduous and evergreen trees</p> <p>identify and describe the basic structure of a variety of common flowering plants, including trees.</p>	<p>observe and describe how seeds and bulbs grow into mature plants</p> <p>find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.</p>	<p>identify and describe the functions of different parts of plants; roots, stem, leaves and flowers.</p> <p>explore the requirements of plants for life and growth (air, light, water, nutrients from soil and room to grow) and how they vary from plant to plant.</p> <p>investigate the ways in which water is transported within plants.</p> <p>explore the role of flowers in the life cycle of flowering plants, including pollination, seed formation and seed dispersal</p>			

Science Progression of Skills

KernowLearning

VOCABULARY	grow	grow	germinate	Nutrient, pollination, fertilisation, seed dispersal, photosynthesis, pollen			
	seed	seed	seedlings				
	shoot	shoot	produce				
	weed	evergreen	reproduce				
	living	deciduous					

Animals inc. Humans	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
KNOWLEDGE		<p>identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals</p> <p>identify and name a variety of common animals that are carnivores, herbivores and omnivores</p> <p>describe and compare the structure of a variety of common animals</p>	<p>notice that animals, including humans, have offspring which grow into adults</p> <p>find out about and describe the basic needs of animals, including humans, for survival (water, food and air)</p> <p>describe the importance for</p>	<p>identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat</p> <p>identify that humans and some animals have skeletons and muscles for support, protection and movement.</p>	<p>describe the simple functions of the basic parts of the digestive system in humans</p> <p>identify the different types of teeth in humans and their simple functions</p> <p>construct and interpret a variety of food chains, identifying producers, predators and prey.</p>	<p>describe the changes as humans develop from birth to old age.</p>	<p>identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood</p> <p>recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function</p> <p>describe the ways in which nutrients and water are</p>

Science Progression of Skills

		(fish, amphibians, reptiles, birds and mammals, including pets) identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.	humans of exercise, eating the right amounts of different types of food, and hygiene.				transported within animals, including humans.
VOCABULARY		Mammals, fish, birds, reptiles, amphibians, carnivore, herbivore, omnivore.	Exercise, healthy, survival, growth, offspring, hygiene, nutrition	Energy, nutrient, skeleton, exoskeleton, muscle, organs, digest, vertebrate, invertebrate, joints	Energy, nutrient, skeleton, exoskeleton, muscle, organs, digest, vertebrate, invertebrate, joints	Adolescent, asexual reproduction, foetus, gestation, sexual reproduction, life expectancy, puberty	Circulatory, pulmonary, chambers, hearts, veins, arteries, blood, cells, platelets, viscosity

Materials	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
KNOWLEDGE		distinguish between an object and the material from which it is made identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock	identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses find out how the shapes of solid objects made from some materials can be			compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets understand that some materials will dissolve in liquid to form a solution, and	

Science Progression of Skills

		<p>describe the simple physical properties of a variety of everyday materials</p> <p>compare and group together a variety of everyday materials on the basis of their simple physical properties.</p>	<p>changed by squashing, bending, twisting and stretching.</p>			<p>describe how to recover a substance from a solution</p> <p>use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating</p> <p>give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic</p> <p>demonstrate that dissolving, mixing and changes of state are reversible changes</p> <p>explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda.</p>	
VOCABULARY		<p>Soft, hard, bendy, stiff, waterproof, dull, shiny, transparent, opaque, smooth, rough, stretchy.</p>	<p>Material, suitability, properties, flexible, absorbent, rigid</p>			<p>Reversible, irreversible, filtering, sieving, soluble, insoluble, solution, solute, conductivity, insulation</p>	

Science Progression of Skills

<p>KNOWL EDGE</p>			<p>explore and compare the differences between things that are living, dead, and things that have never been alive</p> <p>identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other</p> <p>identify and name a variety of plants and animals in their habitats, including microhabitats</p> <p>describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.</p>		<p>recognise that living things can be grouped in a variety of ways</p> <p>explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment</p> <p>recognise that environments can change and that this can sometimes pose dangers to living</p>	<p>describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird</p> <p>describe the life process of reproduction in some plants and animals.</p>	<p>describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including microorganisms, plants and animals</p> <p>give reasons for classifying plants and animals based on specific characteristics</p>
<p>VOCAB ULARY</p>			<p>living, dead, never been alive, habitat, herbivore, carnivore, omnivore, food chain, producer, characteristic</p>		<p>Classification, key, amphibian, mammal, reptile, bird, vertebrate, invertebrate, environment, ecological, nature reserve, deforestation</p>	<p>Classification, key, amphibian, mammal, reptile, bird, vertebrate, invertebrate, environment, ecological, nature reserve, deforestation</p>	<p>algae, bacteria, fungi, classification, micro-organism, organism, species, taxonomy, virus</p>

Science Progression of Skills

Rocks and Soils	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
KNOWLEDGE				<p>compare and group together different kinds of rocks (including those in the locality) on the basis of appearance and simple physical properties</p> <p>describe in simple terms how fossils are formed when things that have lived are trapped within rock</p> <p>recognise that soils are made from rocks and organic matter.</p>			
VOCABULARY				<p>Sedimentary rock, metamorphic rock, igneous rock, fossil, durable, permeable, non permeable, lustre, organic matter</p>			

Light	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
-------	------	--------	--------	--------	--------	--------	--------

Science Progression of Skills

<p>KNO WLE DGE</p>				<p>recognise that they need light in order to see things and that dark is the absence of light</p> <p>notice that light is reflected from surfaces</p> <p>recognise that light from the sun can be dangerous and that there are ways to protect their eyes</p> <p>recognise that shadows are formed when the light from a light source is blocked by a solid object</p> <p>find patterns in the way that the sizes of shadows change.</p>			<p>recognise that light appears to travel in straight lines (repetition)</p> <p>use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye</p> <p>explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes</p> <p>use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.</p>
<p>VOC ABUL ARY</p>				<p>Opaque, translucent, transparent, shadow, reflection, light source, absence</p>			<p>Light, reflection, refraction, spectrum, incident ray, reflected ray</p>

Science Progression of Skills

Forces	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
KNOW LEDGE				<p>compare how things move on different surfaces</p> <p>notice that some forces need contact between two objects, but magnetic forces can act at a distance</p> <p>observe how magnets attract or repel each other and attract some materials and not others</p> <p>compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials</p> <p>describe magnets as having two poles</p> <p>predict whether two magnets will attract or repel each other, depending on which poles are facing.</p>		<p>explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object</p> <p>identify the effects of air resistance, water resistance and friction, that act between moving surfaces</p> <p>recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.</p>

VOCA BULAR Y				Force, friction, attract, repel, magnet, magnetism, magneti magnetic pole, magnetic field		Air resistance, water resistance, gravity, pulley, gear, fulcrum, upthrust	
--------------------	--	--	--	--	--	---	--

States of Matter	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
KNOWL EDGE					<p>explore a variety of everyday materials and develop simple descriptions of the states of matter</p> <p>compare and group materials together, according to whether they are solids, liquids or gases</p> <p>observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)</p> <p>identify the part played by evaporation and condensation in the water cycle and</p>		

Science Progression of Skills

					associate the rate of evaporation with temperature.		
VOCAB ULARY					Molecules, solid, liquid, gas, matter, evaporation, condensation, precipitation, state, water cycle		

Sound	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
KNOWL EDGE					<p>identify how sounds are made, associating some of them with something vibrating</p> <p>recognise that vibrations from a sound travel through a medium to the ear.</p> <p>find patterns between the pitch of a sound and features of the object that produced it</p>		

Science Progression of Skills

Proudly part of
KernowLearning

					<p>find patterns between the volume of a sound and the strength of the vibrations that produced it.</p> <p>recognise that sounds get fainter as the distance from the sound source increases.</p>		
VOCABULARY					<p>Amplitude, medium, pitch, sound, sound source, speed, vibration, volume, waves</p>		

Electricity	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
--------------------	-------------	---------------	---------------	---------------	---------------	---------------	---------------

Science Progression of Skills

<p>KNOWLE DGE</p>					<p>identify common appliances that run on electricity</p> <p>construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers</p> <p>identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery</p> <p>recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit</p> <p>recognise some common conductors and insulators, and associate metals with being good conductors.</p>		<p>associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit</p> <p>compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches</p> <p>use recognised symbols when representing a simple circuit in a diagram.</p>
-----------------------	--	--	--	--	---	--	---
